

GUARANTEED
QUALITY

At Ledlenser, we pride ourselves in superior quality in everything we do. From design all the way to manufacturing our product, we push the boundaries of innovation every step of the way.

All Ledlenser lights purchased from an authorized reseller are backed by a five-year warranty. An additional two years can be added to this warranty – seven years in total – if the user registers their product. Each light comes with a product registration card and unique product code. The user can simply scan the included QR code on the product registration card and follow the prompted instructions or enter the URL on a web browser. Once the product information has been entered on our website, the warranty becomes a full seven-year warranty.

THERE IS MORE!

Follow the QR code to our full line product catalog.

7
YEAR
WARRANTY*

GERMAN ENGINEERING
& DESIGN

The information pertaining to package contents, appearance, performance, dimensions and weight corresponds to the information available at the time of publication. In the interest of product development, we reserve the right to change package contents, appearance, design and color without prior notice. Product images may vary from the actual products and may show optional accessories which can be purchased separately. Errors and misprints excepted.

1) Measurements according to ANSI FL1 in the respective setting. If no setting is explicitly named for a measured value, the values for luminous flux (lumens/lm) and luminous range (meters/m) refer to the brightest setting and the values for the luminous period (hours/h) refer to the lowest setting. For „max. - min.“ range, in terms of luminous flux (lumens/lm) and luminous range (meters/m), the range from the brightest setting (first value) to the lowest setting (second value) is given. With regards to the values of the luminous period (hours/h), the range from the lowest setting (first value) to the brightest setting (second value) is given. A boost function (if available) can be used several times, but only for short periods. If the lamp has different energy modes, measurement is based on „energy-saving mode.“

2) Charging time (in hours and minutes) may vary by power supply.

*) Ledlenser has a non-transferable warranty. Ledlenser's warranty is conveyable to the end-use purchaser only through authorized Dealers and Distributors. No other warranty is expressed, implied or valid when purchased from an unauthorized third party. Five year warranty from the date of purchase, or seven years with online registration through our website. The warranty applies worldwide; legal warranty rights also apply. It covers defects in material and manufacture. Battery packs are guaranteed to work correctly for 24 months. This warranty does not cover products in the "Solidline" series, Ledlenser K1 and Ledlenser K2, as well as defective batteries, holsters, pouches, remote switches, color filters, imprints and surface coatings. The warrantor is Ledlenser GmbH & Co. KG, Kronenstr. 5-7, 42699 Solingen, Germany. For more information visit ledlenserusa.com/pages/service-warranty
